November 10, 2025

The Managing Director
Jamaica Stock Exchange
40 Harbour Street
Kingston
Jamaica

Dear Sir/Madam,

Fontana Limited wishes to advise that, as a result of the passage of Hurricane Melissa, our corporate offices in Montego Bay sustained significant damage, including roof failure and extensive flooding of key operational areas.

The flooding has disrupted access to our accounting and administrative systems, and has also impacted a number of our team members. Consequently, the preparation and review process for our unaudited first quarter financial statements as well as our annual report has been unavoidably delayed.

We were scheduled to publish these results on November 15, 2025, however, due to the circumstances outlined above, there will be a delay in the release of the financial statements, additionally we were to publish our annual report on November 11th. The Company is actively assessing the extent of the damaged is taking all necessary steps to restore normal operations as quickly as possible.

Fontana Limited remains committed to ensuring full compliance with the reporting obligations of the Jamaica Stock Exchange and will provide a revised publication dates once operations have sufficiently stabilized.

We thank you for your understanding during this period and will continue to update the Exchange as more information becomes available.

Yours faithfully,

Anne Chang
Chief Executive Officer
Fontana Limited
