UNAUDITED FINANCIAL STATEMENTS

Three months ended March 31, 2026

FINANCIAL HIGHLIGHTS

Dear Fellow Shareholders,

We are pleased to present Dolla Financial Services Limited's unaudited consolidated financial statements for the first quarter ended March 31, 2026.

Financial Overview

In the first quarter of 2026, Dolla Financial Services reported total income of \$514 million, reflecting a 2% year-over-year growth. This performance, albeit being unchanged year over year, signifies a modest yet consistent resurgence in growth following the income fall in Q4 2025.

Net interest income (NII) prior to anticipated credit losses (ECL) decreased by 3% year-over-year to \$389 million, attributable to heightened interest expenses during the quarter. Interest expenses rose as a result of the proceeds from the \$1.5 billion bond issuance that concluded in January 2026.

Operating expenses declined by \$80 million, or 28%, to \$202 million, principally owing to a 66% drop in the provision for expected credit losses as the Company recovers from last year's provisions and write-offs related to fraudulent loans.

The 2% income growth and 28% expense reduction led to a 55% increase in profit before tax, amounting to \$187 million - a clear indication of Dolla's momentum and fulfilment of pledges to shareholders.

The Group's cash position rose year-over-year to \$802 million, chiefly attributable to the proceeds from the previously stated bond issuance. Management continues to prioritize the equilibrium between loan collections and new disbursements to enhance liquidity, while retaining a portion of profits to augment reserves.

Earnings per share (EPS) rose to \$0.07 in March 2026, up from \$0.05 in March 2025, but the efficiency ratio enhanced to 39%, a decrease from 56% the previous year.

Loan Portfolio

The loan portfolio increased by \$642 million year-over-year, totalling \$4.9 billion net of anticipated credit losses as of March 31, 2026. This expansion was entirely organic and fuelled by capital from consumer repayments.

Business loans comprised 90% of the portfolio, whereas secured loans constituted 89%, illustrating our judicious and methodical risk management approach. Our collateral-backed lending methodology consistently upholds portfolio quality, with Non-Performing Loans (NPLs) at 15% and Expected Credit Loss (ECL) coverage at 4.8%.

Liabilities and Shareholders' Equity

As of March 2026, total liabilities amounted to \$4.2 billion, reflecting a slight year-over-year increase of 24%, attributed to the company's assumption of additional debt and the declaration of \$150 million in dividends in February 2026. Shareholders' equity increased by 44% to \$18 billion, indicating enhanced profitability and rise in retained earnings.

Dividends

Following the examination of the Company's Q4 2025 results, the Board of Dolla Financial Services Limited declared an interim dividend of \$150 million, equating to \$0.06 per share. The dividend was disbursed on April 13, 2026, to shareholders recorded as of March 30, 2026. Dolla is dedicated to augmenting shareholder value and distributing it to shareholders when deemed judicious.

Dolla Financial Services Limited

Notes to the Financial Statements

Three Months ended 31 March 2026

(expressed in Jamaican dollars unless otherwise indicated)

1. Identification and Principal Activities

(i) Dolla Financial Services Limited (“the Company”), is a limited liability company incorporated and domiciled in Jamaica. The top three (3) shareholders of the Company are Mayberry Group Limited, holding in aggregate 28.62% shares, Dequity Capital Management Limited holding 19% shares and Premier Private Equity, owning 9% shares. The Bank of Jamaica, on November 24, 2022, granted the Company a license to operate as a Microcredit Institution, pursuant to the Microcredit Act, 2021.

The principal place of business and registered office is located at Unit #1, Barbican Business Centre, 88 Barbican Road, Kingston 6.

The Company's subsidiaries (Dolla Guyana Inc and Ultra Financier Limited), together with the Company, are referred to as “the Group”.

The Company's principal activities during the period were the provision of short-term loans.

(ii) Dolla Guyana Inc.

Dolla Guyana Inc. During 2021, the Group established its fully owned subsidiary, Dolla Guyana Inc., which is incorporated in Guyana. The principal activity of the subsidiary during the year was the provision of short-term loans.

(iii) Ultra Financier Limited

During 2022, the Group established its wholly owned subsidiary, Ultra Financier Limited, which is incorporated in Jamaica. The principal activity of the subsidiary during the period was the provision of short-term loans.

The Company's subsidiary which together with the Company are referred to as “the Group”.

2. Statement of Compliance

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The financial statements comply with IFRS as issued by the International Accounting Standards Board (IASB).

Dolla Financial Services Limited

Notes to the Financial Statements

Three Months ended 31 March 2026

(expressed in Jamaican dollars unless otherwise indicated)

3. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

These unaudited financial statements for the Three (3) months period ended March 31, 2026 have been prepared in accordance with IAS 34, "Interim Financial Reporting". These interim financial statements should be read in conjunction with the accounting policies as set out in Note #2 & #3 of the audited financial statements for the year ended December 31, 2025 which has been prepared in accordance with International Financial Reporting Standards ("IFRS") and the relevant requirements of the Act. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed onward.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been issued which are mandatory for the Group's accounting periods beginning on or after 1 January 2022 or later periods, but were not effective at the statement of financial position date. The Group has assessed the relevance of all such new standards, interpretations and amendments, has determined that the following may be relevant to its operations, and has concluded as follows:

Amendments to IAS 1, *Presentation of financial statements on classification of liabilities*, (effective for annual periods beginning on or after 1 January 2023). These narrow-scope amendments to IAS 1 clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity. They must be applied retrospectively in accordance with the normal requirements in IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

Dolla Financial Services Limited

Notes to the Financial Statements

Three Months ended 31 March 2026

(expressed in Jamaican dollars unless otherwise indicated)

3. Summary of Significant Accounting Policies (Continued)

(a) Basis of preparation (continued)

Standards, interpretations and amendments to published standards that are not yet effective and not early adopted (continued)

Amendment to IAS 12, *Income Taxes* on deferred tax related to assets and liabilities arising from a single transaction, (effective for annual periods beginning on or after 1 January 2023) . These amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.

A number of narrow-scope amendments to IFRS 3 and IAS 37 and some annual improvements on IFRS 9 and IFRS 16, (effective for the Group's financial year beginning on 1 January 2022).

Amendments to IFRS 3, *Business combinations* update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations

Amendments to IAS 37, *Provisions, contingent liabilities and contingent assets* specify which costs a company includes when assessing whether a contract will be loss-making. The amendment to IAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognising a separate provision for an onerous contract, the entity recognises any impairment loss that has occurred on assets used in fulfilling the contract.

Annual improvements make minor amendments to IFRS 9, *Financial instruments* and the Illustrative Examples accompanying IFRS 16, *Leases*.

Dolla Financial Services Limited

Notes to the Financial Statements

Three Months ended 31 March 2026

(expressed in Jamaican dollars unless otherwise indicated)

3. Summary of Significant Accounting Policies (Continued)

(b) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities over which the Group has control. The Group has control over an entity when the Group is exposed to the variable returns from its ownership interest in the entity and when the Group can affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group, and subsidiaries are de-consolidated from the date on which control ceases.

All material intra-group balances, transactions and gains are eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

The company carries its investments in subsidiaries at cost less impairment.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Jamaican dollars, which is the Group's presentation currency.

4. Critical Accounting Estimates and Judgments in Applying Accounting Policies

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. The resulting accounting estimates will, by definition, seldom equal the related actual results. The Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

(a) Income taxes

The Group is subject to income taxes. Significant judgement is required in determining the provision for income taxes. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Dolla Financial Services Limited

Notes to the Financial Statements

Three Months ended 31 March 2026

(expressed in Jamaican dollars unless otherwise indicated)

4. Critical Accounting Estimates and Judgments in Applying Accounting Policies (continued)

(b) Measurement of the ECL

The measurement of the ECL for financial assets measured at amortised cost requires the use of models and significant assumptions about future economic conditions and credit behaviour such as the likelihood of customers defaulting and the resulting losses.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- (i) Determining criteria for SICR;
- (i) Choosing appropriate models and assumptions for the measurement of ECL; and
- (i) Establishing appropriateness of forward-looking information.

Forward looking information

A forward-looking score card model is used to estimate the potential impact of future economic conditions on the expected credit loss. The model accounts for the fact that a number of key macro-economic variables simultaneously play a role in impacting the overall state of the economy – albeit at varying degrees. The model is based on the premise that the probability of default is higher in a weak economic environment. The converse is true when the fundamentals of the economy are moving in the right direction. Four of the economic variables that are likely to have material the greatest degree of impact on the institution's expected credit loss include the following: inflation, interest rate, unemployment and gross domestic product. Weights are assigned to the respective economic variables based on the degree of influence that each variable is presumed to have on the borrowers' overall likelihood of default.

Macroeconomic variables that affect the performance of the portfolio the most are chosen and their significance (weighting) assigned. Each macroeconomic variable is then given a state, depending on management expectation. Each state is assigned a corresponding multiplier which indicates the impact of the state on the portfolio. The multipliers determine the range of ECL fluctuation. If the range is narrow, it means that the portfolio is less prone to macro-economic conditions. If the range is wide, the portfolio is easier affected by the indicators identified. This exercise is performed for all scenarios which represent different macroeconomic outlook. The set of variables remain the same, however the states may vary depending on each specific scenario. The three scenarios are weighted based on the range of macroeconomic scenarios they cover. The score and probability of impact of each scenario are multiplied, and the results are summed for all three scenarios.

Dolla Financial Services Limited

Notes to the Financial Statements
